+ PRICE GUIDE 2025

## ABOUT US

INSPIRED BY NATURE, MOMENTS & MEMORIES.

Our mission is to create clean burning candles that are vegan, cruelty-free, and phthalate-free with captivating scents and minimalist packaging to fit every home. We use 100% soy wax, lead-free cotton wicks, and essential oils for an eco-friendly clean burn. All of our candles are wicked, poured, and labeled by hand here in our small workspace in Arizona by our small team of one. As an eco-conscious company, we opt to only use recyclable packaging and shipping materials.

Helping the environment in any way is the goal of our company. For every candle purchase, we donate a portion to help plant trees around the world.

# OUR SPRING COLLECTION

## Line Sheet
